3. Accrual of Interest. For 457 Deferred Compensation, Special Purpose and Passport Money Market Deposit accounts, interest will begin to accrue on deposits on the business day the deposit is posted to your account. For Special Purpose and Passport Money Market Deposit accounts, if you close your account before accrued interest is credited; accrued interest will not be paid.

4. Balance Information. To open any account you must deposit or already have on deposit at least the par value of one full share in any account. The par value amount is stated in the Fee Schedule. Some accounts may have additional minimum opening deposit requirements. The minimum balance requirements applicable to each account are stated in the Rate Schedule. For the C1 Advantage Checking account, there is a minimum of six (6) transactions per month required to earn the first Interest Rate and Annual Percentage Yield listed for this account in the Rate Schedule. For accounts using the Average Daily Balance method as stated in the Rate Schedule, interest is calculated by applying a periodic rate to the Average Daily Balance in the account for the interest period. The Average Daily Balance is calculated by

adding the balance in the account for each day of the period and dividing that figure by the number of days in the period. For accounts using the Daily Balance method as stated in the Rate Schedule, dividends are calculated by applying a daily periodic rate to the balance in the account each day.
